

ELECTRIFIED / HYBRID / BATTERY RECYCLING

Hybrid Electric HV Battery Recycling Program

Cash rebates and discounts when you recycle

If you own a Toyota Hybrid Electric Vehicle there's good chance you care deeply about our environmental impact. You'll be happy to hear that when a Hybrid Electric HV battery is properly recycled, in excess of 98% of the battery materials are diverted from landfill, and all toxic elements removed.

BATTERY RECYCLING PROGRAM

Encouraging effective recycling

We offer two incentives available to all Toyota dealers around Australia. They aim to promote and reinforce effective recycling, and help to limit our impact on global resources and landfill.

\$100 cash rebate

When a recovered Hybrid Electric HV battery is returned to a Toyota Service Centre.

\$500 discount

Off the purchase of a replacement hybrid electric HV battery when you return & purchase a new Hybrid Electric HV battery.
